## ILLUSTRATION ON HOW TO COMPUTE DIVIDENDS

Dividend Rate $=\quad$ Surplus Available for Distribution as Dividends

## Actual Distribution for 2015

$$
\begin{aligned}
& \text { Dividend Rate }=\frac{79,355.35}{2,028,177.11} \\
& \text { Dividend Rate }=0.03912644
\end{aligned}
$$

## Example:

A. Bill joined HPPECC on January 10, 2015 with a monthly contribution of P1,000.00.
B. Dave joined HPPECC on January 10, 2015 with a monthly contribution of P2,000.00. Then on June 10, 2015, he made a one-time deposit of P100,000.00 to his Share Capital.
C. Meg joined HPPECC on December 31, 2015 and deposited P200,000.00 to her Share Capital.

Total Share Months = sum of monthly Share Capital Balance from January to December

Average Share Capital = Total Share Months divided by 12

|  |  |  |  |  |  |  |  |  |  |  |  |  |  | Average <br> Share |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Motal Share <br> Capital |  |
| Bill | 1 K | 2 K | 3 K | 4 K | 5 K | 6 K | 7 K | 8 K | 9 K | 10 K | 11 K | 12 K | 78 K | $6,500.00$ |
| Dave | 2 K | 4 K | 6 K | 8 K | 10 K | 112 K | 114 K | 116 K | 118 K | 120 K | 122 K | 124 K | 856 K | $71,333.33$ |
| Meg |  |  |  |  |  |  |  |  |  |  |  | 200 K | 200 K | $16,666.67$ |

Dividends = Average Share Capital x Dividend Rate

Bill's Dividends $=$ P6,500.00 $\times 0.03912644=\underline{\text { P254.32 }}$
Dave's Dividends $=$ P71,33.33 x $0.03912644=\underline{P 2,791.02}$
Meg's Dividends $=$ P16,666.67 x $0.03912644=\underline{\text { P652.11 }}$

## ILLUSTRATION ON HOW TO COMPUTE PATRONAGE REFUND

Patronage Rate $=\frac{\text { Surplus Available for Distribution as Patronage Refund }}{\text { Total Interest paid by all members }}$

## Actual Distribution for 2015

Patronage Rate $=\frac{34,009.44}{382,534.32}$
Dividend Rate $=0.088905592$

Example: Dion was granted a loan of P50,000.00 and paid a total interest of P6,542.70 for 2015.

Patronage Refund = Total Interest Paid x Patronage Rate

Dion's Patronage Refund $=P 6,542.70 \times 0.088905592=\underline{P 581.68}$
