An Overview

Val Hilario

# What is a cooperative?

- Based on **Republic Act 9520** (Philippine Cooperative Code of 2008):

*A cooperative is an autonomous and duly registered association of persons, with a **common bond of interest**, who have **voluntarily** joined together to achieve their social, economic, and cultural needs and aspirations by making equitable **contributions** to the capital required, **patronizing** their products and services and accepting a fair share of the **risks and benefits** of the undertaking in accordance with universally accepted cooperative principles.*

# Members are Owners are Customers

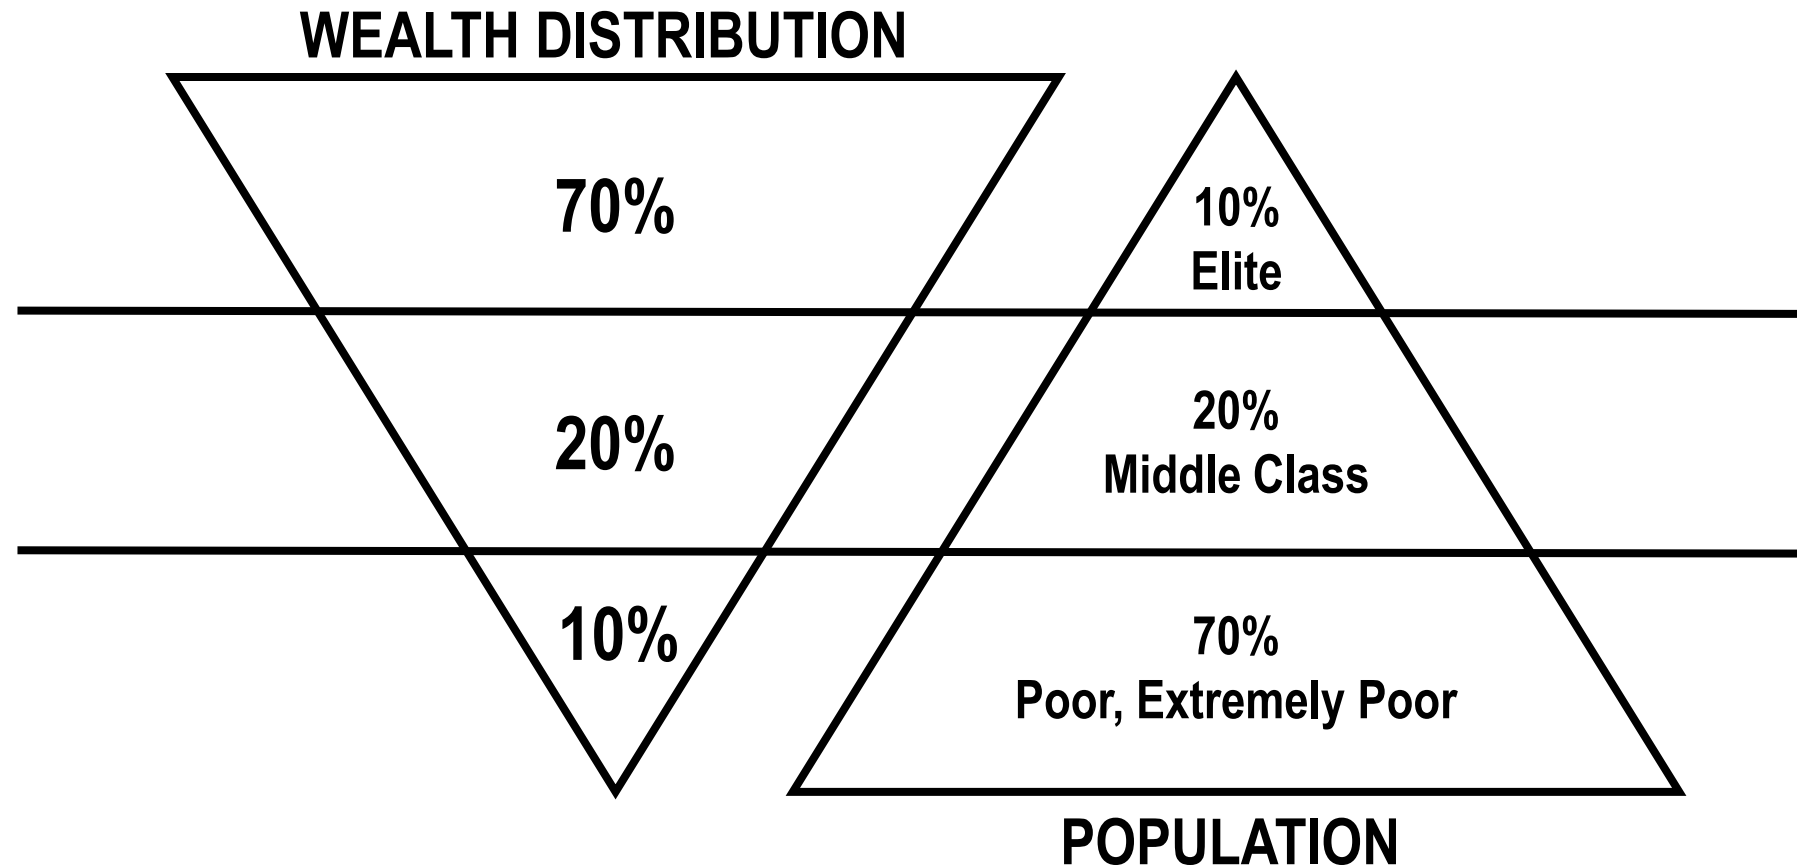

In a cooperative, members provide the **capital** the cooperative needs to run the business; therefore, **members** are the real **owners** of the cooperative. At the same time, they are its main **customers**. For this reason, the success of the cooperative also depends on how well members **patronize** its business.

# Corporation vs Cooperative

CORPORATION	COOPERATIVE
Business	Business
Professionally Managed	Professionally Managed
Legal Entity	Legal Entity
Securities and Exchange Commission	Cooperative Development Authority
Shareholders ≠ Customers	Shareholders = Members = Customers
Number of votes depend on investment	One Member, One Vote

# What Cooperatives try to Address

# Members are the Highest Governing Body

As owners, members are the **supreme authority** and they exercise that authority when they meet in a general assembly every year, and through the board of directors and other committees they elect democratically during the assembly. These elected officers are accountable to them.

**SENATE MAJORITY LEADER ALAN PETER CAYETANO  
MESSAGE TO MEMBERS OF THE HPP EMPLOYEES CREDIT COOPERATIVE  
ON THEIR 2<sup>ND</sup> GENERAL ASSEMBLY**

I am extending my warmest greetings to all the members of HPP Employees Credit Cooperative!

Considering that this is just your second General Assembly, what you have accomplished in your first year of operation shows clear proof that with hard work and an honest leadership, everyone can make a difference.

Today, our country remains hounded by problems like high prices of goods, lack of jobs, and low income, which prevent our people from enjoying the fruits of our growing economy. But amidst the challenges that we are facing, our grand plan for the future remains the same. We remain committed to our goal of creating real change for every Filipino family.

We have always believed that developing the country's cooperative sector will help open better growth corridors for ordinary Filipino workers. That is why, in 2013, we launched our PTK (Presyo, Trabaho, Kita/Kaayusan) agenda that aims to provide better livelihood opportunities to marginalized sectors and small cooperatives that do not have enough access to capital to sustain their livelihood.

Our initiatives in the public sector continue to change lives, but we cannot fulfill our goal of achieving inclusive growth by ourselves. Your respectable organizations play a vital role in this journey, as a strong cooperative sector is known to benefit economies all around the world. This is why we encourage you to continue doing your part, capitalize on the momentum that you have gained in the past year. And together, let us all strive to build a more empowered Philippines.

Congratulations on succeeding in your past endeavors! I wish you greater luck in the future ones!

## MESSAGE

*My warmest greetings to the Hewlett Packard and DXC Technology in the Philippines Employees Credit Cooperative on your 4th Annual General Assembly.*

*The cooperative is a proven system that has elevated and improved the lives of a lot of our countrymen particularly uplifting those who belong to the margins.*

*Given that the IT and BPO industries belong to the largest employers of our country today, we need cooperatives in these sectors who can partner with the government towards uplifting the lives of our fellow Filipinos. Through our continued cooperation and collaboration, we can empower more of our citizens and improve quality of life, one community at a time.*

*Let us continue working together for inclusive and sustainable growth. May your general assembly and what you have accomplished so far in a short time, inspire you even more to aim for collective and inclusive success.*

*May you have a fruitful assembly.

## MAR ROXAS

My warmest greetings to the HPP Employees Credit Cooperative on your 5th Annual General Assembly!

I have always believed that Filipinos have the talent, skills, and determination to do well not only for themselves, but also for the Philippines. All you have to do is give them the right opportunities, point them to the right direction, and they will do the rest.

The BPO industry is proof of this. More than a million Filipinos are now earning enough to support their families, without having to work abroad. Plus, the money they spend on cab fares, restaurants, travel, subscriptions and others contribute to our economy.

I was very excited when I heard about HPPECC. Providing access to credit to BPO employees is a very good way of ensuring that their gains today would be more permanent. It would also open new doors of opportunities for them that will in turn redound to our economy.

I congratulate the officers, management, and members of HPPECC for all your hard work and accomplishments to date. Keep up the good work! More power and I wish you a meaningful assembly.
